SUMMARY

Motivated BCA student and aspiring Web Developer with hands-on experience building full-stack web applications and practical software projects. Skilled in MERN Stack, HTML, CSS, JavaScript, MongoDB, Python, Git, and GitHub, with a strong interest in cloud technologies and Google Cloud Platform. Experienced in building responsive web applications, developing projects including INTERNZO (a student internship portal) and a Python-based attendance management system, with strengths in problem-solving, debugging, Data Structures and Algorithms (DSA), Git, and GitHub.

ACCOMPLISHMENTS

- Completed BCA academic projects using full-stack technologies.
- Successfully developed and deployed projects using GitHub.
- Completed relevant technical training and certifications.
- Participated in coding competitions, workshops, and technical events.
- Achieved good grades and academic recognition.

EDUCATION

Bachelor of Computer Applications (BCA)

Specialization: Google Cloud, AI and Data Analytics

Srinivas University, Mangalore, India

July 2024 - April 2027

TECHNICAL SKILLS

- **Web Development:** HTML, CSS, JavaScript
- **MERN Stack:** MongoDB, Express.js, React.js, Node.js
- **Programming & Concepts:** Python, Java, Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Debugging
- **Database Management:** MongoDB, MySQL
- **Cloud & DevOps:** Google Cloud Platform (GCP), Git, GitHub

LANGUAGES

English, Hindi, Malayalam, Tamil (Basic)

SOFT SKILLS

- Problem-Solving & Debugging
- Teamwork & Collaboration
- Communication
- Time Management
- Adaptability & Willingness to Learn
- Attention to Detail

PROJECTS

ZIZI - E-Commerce Website

Technologies: HTML, CSS, JavaScript

- Built a responsive e-commerce website with product browsing and cart features.
- Implemented login and shopping-cart functionality using JavaScript.
- Managed project source code using GitHub.

Student Attendance Management System

Technologies: Python, Tkinter, CSV

- Developed a desktop-based attendance management system using Python and Tkinter.
- Implemented separate login and dashboards for administrators and students.
- Added attendance management and CSV-based data storage.
- Used Git and GitHub for project version control.

INTERNZO - Student Internship Portal

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

- Developed a web-based internship portal connecting students and companies.
- Implemented student, company, and admin dashboards with authentication.
- Added internship posting, searching, and application features.
- Designed a responsive and user-friendly interface.
